# Benefits premium administration software for Brokers

Create capacity, eliminate Excel usage, and prevent billing errors to deliver cost savings for your clients.

Schedule demo

Automate
Billing

Automatically capture carrier list-bill invoices and create self-bills from benefits enrollment systems. Save your clients time, reduce billing errors, and create audit trails.

PDF Consolidated invoicing.pdf

Integrate
Data flows

Connect with insurance carriers through Tabulera EDI module, automate repetitive tasks and track status with date-effective dashboards. Get the freedom to focus on your clients.

PDF EDI Connectivity.pdf

Streamline
Payments

Consolidate all carrier premiums into a single monthly payment. Free-up your client's accounts payable department. Track benefit costs down to the penny and create bandwidth for HR teams.

PDF Payment Automation.pdf

Avoid
Write-offs

Reconcile premiums with enrollment, payroll and COBRA transactions. Maintain a benefits ledger to accurately track employer and employee-level contributions to avoid write-offs.

Discover how Tabulera's environment can streamline time-sensitive repetitive benefits management tasks that might otherwise be overlooked and result in compliance issues.
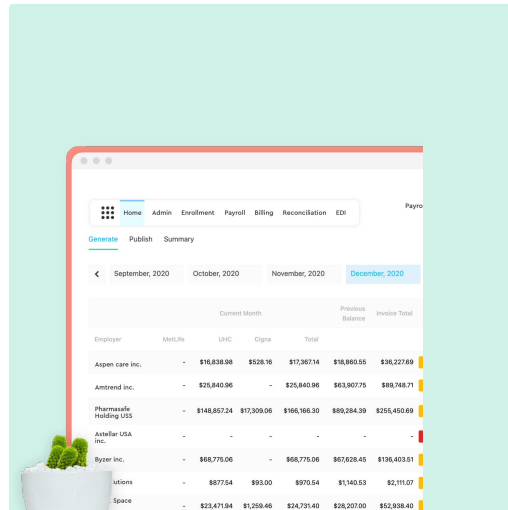

Automate everything

Single or Multiple Employer Plans?

Support single or multiple employer benefits plan administration activities across your client base and get back to providing advice to them and reduce benefits management tasks.

Billing

Plan accounting

Automate repetitive billing activities across departments, locations, entities and business units to properly allocate employee benefit costs.

**Eliminate overpayments**

Uncover hidden expenses

Carrier billing, payroll, enrollment, COBRA platforms - too many disperate systems, not enough time to monitor rates and setup. Identifying differences in these platforms due to incorrect or incomplete configurations is essential to eliminate the hidden expenses of employee benefit write-offs.

Integrated reconciliation

Compare multiple platforms to identify differences and track to resolution. Overview dashboards provide executive oversight.

Employee benefits broker software that keeps **cost down**

Anytime there's a manual process comparing enrollment, payroll records, and carrier records, inadvertent errors can be introduced. It's very easy to miss over-or-under payments or if an employee should be added or removed from a benefit plan. If errors are not caught in time, employers can face unexpected expenses due to overpayments or under collections of premiums.
